MUKESH KUMAR

MERN Stack Developer

+91 9752688097 | mk8520889@gmail.com | LinkedIn | Portfolio | GitHub

Gwalior, MP, India

PROFESSIONAL SUMMARY

Results-driven Full Stack MERN Developer with 1+ year of hands-on internship experience designing and deploying scalable web applications. Skilled in React.js, Next.js, Node.js, and MongoDB with strong command over Redux Toolkit, TypeScript, and REST API development. Proven ability to deliver complete end-to-end features — from secure JWT authentication and role-based access control to payment gateway integration and admin dashboards. Passionate about writing clean, maintainable code and building user-centric products ...and building scalable admin dashboards with full CRUD operations.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, Redux, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Socket.IO, REST API Development

Database: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel

WORK EXPERIENCE

MERN Stack Developer Intern | PNInfosys March 2025 – April 2026

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js, and MongoDB, improving application reliability and performance.
- Built modular and reusable React components, reducing code duplication by ~30% and improving UI performance
- Designed and integrated 20+ RESTful API endpoints, improving frontend-backend data flow efficiency by ~40%
- Implemented secure JWT-based authentication and role-based access control (RBAC) for multiple user roles
- Developed a full-featured admin dashboard with CRUD operations (Create, Read, Update, Delete) to manage users, data, and system workflows

PROJECTS

Real-Time Chat Application — Full-stack chat application with real-time messaging, user presence indicators, JWT authentication, and protected routes. Built using React.js, Node.js, Socket.IO, and MongoDB. Managed global state via Context API.

Live Demo: https://rebrand.ly/qp3tkhr | GitHub: https://rebrand.ly/jmlsuw6

College Portal — Developed a full-stack responsive college portal with an admin dashboard, role-based authentication, and secure login using Node.js, Express.js, and MongoDB. Integrated email notifications via Nodemailer.
