MUKESH KUMAR

Full Stack MERN Developer | React.js | Next.js | Node.js | MongoDB
Gwalior, Madhya Pradesh | +91 9752688097 | mk8520889@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer (MERN) with 1+ year of experience building scalable, responsive web applications using React.js, Next.js, Node.js, Express.js, MongoDB, and PostgreSQL. Skilled in RESTful APIs, JWT authentication, RBAC, Redux Toolkit, TypeScript, and admin dashboards with CRUD operations. MCA graduate (2026).

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, Redux Toolkit, Context API, HTML5, CSS3, Tailwind CSS, Responsive Design
Backend: Node.js, Express.js, RESTful APIs, Socket.IO, Inngest
Database: MongoDB, PostgreSQL, MySQL, Neon
Authentication: JWT, Clerk, Role-Based Access Control (RBAC)
Tools & Practices: Git, GitHub, Vercel, Postman, VS Code, CRUD Operations, API Integration, Component-Based Architecture

EXPERIENCE

MERN Stack Developer Intern — PNInfosys *March 2025 – April 2026*

- Built full-stack web applications with React.js, Node.js, Express.js, and MongoDB; created reusable React components that cut code duplication by ~30%.
- Designed and integrated 20+ RESTful API endpoints, improving frontend-backend data flow efficiency by ~40%.
- Implemented JWT authentication with role-based access control (RBAC) and built an admin dashboard with full CRUD operations.

PROJECTS

Multi-Vendor E-Commerce Platform | *Next.js, PostgreSQL (Neon), Clerk, Stripe, Inngest, ImageKit*
Live Demo | GitHub

- Developed a marketplace where users open their own stores and sell products online, with admin approval for new stores.
- Integrated Clerk authentication, Stripe payments, and subscription billing.
- Built an admin dashboard to manage stores and coupons; used Inngest for background jobs and ImageKit for image handling.
- Built responsive, reusable UI components with Next.js and Tailwind CSS for the storefront, seller, and admin pages.

Real-Time Chat Application | *React.js, Node.js, Express.js, Socket.IO, MongoDB, JWT*
Live Demo | GitHub

- Built a full-stack chat application with real-time messaging and user presence indicators using Socket.IO.
- Implemented JWT authentication and protected routes; managed global state with Context API.
- Developed Express.js REST APIs and MongoDB models to store user and message data, integrated with the React.js frontend.

EDUCATION

Master of Computer Applications (MCA) — University Institute of Technology, RGPV, Gwalior, Madhya Pradesh
Completed — 2026

Bachelor of Computer Applications (BCA) — Jiwaji University, Gwalior, Madhya Pradesh
Completed — 2021

CERTIFICATIONS

- Introduction to Front-End Development — Coursera (Meta)
